## DAY AND NIGHT FLIGHTS BY DARING AIRMAN

Louisiana State Fair Visitors Will See New and Thrilling Sight When Daring Airman Appears At Night.

Arrangements have been made for sensational airplane stunts as feature, few of charge entertainment for the Louisiana State Fair visitors this year. Louis Gorton, the "Thrust Night Hawk," a noted aviator, has been engaged to furnish the wonderful amusement. The fair association went to great expense to book the daring aviator, who will make day and night flights. Visitors to the Louisiana fair have seen during daylight portions of the show, but this year's program is the first to provide for night performances. It will be a rare privilege to witness such an exhibition, and thousands of eyes will be glued to the sky as he pulls off his thrilling feats.

The military idea will be featured by the daring aviator as he will give the spectators a picture of what the aviators are doing in the world war. Bombs will be dropped and other military devices, representing them, will be used. These at night will be brilliantly illuminated. Were one of these bombs to be leader and strike on the fair grounds, the fair would be destroyed. It is not, of course, they will be "black" bombs, so there's no reason for anyone to star away through fear of bombardment.

For additional information, write to W. H. Hirsch, secretary, Shreveport, La. Don't forget the state fair dates, October 23-November 5 and 6. Don't forget that Gorton's flights will take place Wednesday, October 31, Friday, November 2, and Sunday, November 4.

RURAL SCHOOLS WILL MAKE FAIR EXHIBITS

Samples of the splendid work that is being done in Louisiana by agricultural high schools will be seen by visitors at the State Fair at Shreveport, October 23 to November 5. Dozens of booths will be occupied by these exhibits. They will be selected specimens of the rural high schools and will demonstrate the fact that the boys and girls of Louisiana's rural communities are receiving practical lessons in the best methods of farming.

P. L. Olsson, state inspector of agricultural high schools, of Baton Rouge, will be in charge of this department. The exhibits, which will convince visitors that the agricultural high schools are important parts of the general educational system of the state, will be displayed throughout the main agricultural hall. There will be pleasure in showing the schools making the exhibits.

Prizes to the extent of \$200.00 have been offered the schools making the most creditable displays, and the scores of contestants will manifest a great deal of rivalry.

For further information, write to W. H. Hirsch, secretary, Shreveport, La.

PARISH FAIRS WILL MAKE DINE DISPLAYS

The parish fair contests at the Louisiana State Fair this year will be one of the highlights of the annual exhibition. Rivalry between the various parishes is usually keen, and the parish committees promise to be the closest on record. Close to two dozen parish booths are expected to be filled by the contestants. Several have already made known their intention of participating and others are planning to be represented with large displays, with particular attention given quality of the exhibits and attractiveness in arrangement.

In the parish fair booths there will be thousands of individual exhibits, and hundreds of different kinds of farm products will be represented. The individual exhibits may be entered in competition for general prizes, in addition to forming parts of the parish displays. Practically all agricultural products grown in Louisiana will be represented, and the numerous exhibits will give an idea of the state's immense farm possibilities. Each booth will be neatly set, and attractively arranged, as general appearance counts in the parish fair contest as well as quality of exhibits.

The fair association offers \$1,000 for this contest. It will be distributed to the ten parish associations making highest scores. In addition, the state association gives \$100 to each parish fair exhibitor not capturing prize money, and \$25 to each parish fair winning prize money, this all being in addition to the prizes, to help defray expenses.

For further information, write to W. H. Hirsch, secretary, Shreveport, La. Remember the State Fair opens October 31 and runs six days.

## Are You Ready for the Big Show? Exhibits Here Monday, October 1st.

COLE BROS. TRAINED WILD ANIMAL SHOW

The old and well known Cole Bros. Big Three Ring Trained Wild Animal Show will exhibit at Natchitoches, on Monday, Oct. 1. The billboards, barns and dead walls are announcing with pictorial art the coming occasion; about the time the milk man makes his rounds on the morning of Monday, Oct. 1, the first train of the two long yellow, steel trains will be pulling into the railroad yards. Cole Bros. Shows will be bigger than ever this year. This is the 29th annual show, in every town Cole Bros. visit are found old men and women who saw the show when it toured the country overland in wagons in the 50's.

European agents have notified the show that it "shows no signs of being a failure." The question of salary was not considered. New acts and faces will disprove the failure that all "shows no signs of being a failure."

Foremost among the features is Mr. Chas. Gray and his big \$100,000 group of black maned African, jungle bred lions. This act must be seen to be appreciated, it is sensational to the utmost.

"Cheerful" Gardner, the animal trainer and his troupe of elephants, Miss Muriel Croft and her lioness lion. This lioness acts to the apex.

BURIAL PERMITS NECESSARY.

Louisiana State Board of Health, New Orleans, La., Sept. 24th, 1917. Mr. Chas. Delilleux, Natchitoches, La.

We have been advised that you have charge of the Catholic cemetery in your town, and for your information we wish to call your attention to the Extract from the State Sanitary Code attached hereto.

You will note that it is unlawful to permit the interment of any body in this State unless the remains are accompanied by a Burial Permit secured from the Local Registrar of the district in which the death occurred.

We are sending you under separate cover, Cemetery Record Book, in which you are required by law to keep a complete record of all burials made. It will be necessary for you to check this Record Book from time to time, and we will call that you please keep it as near correct as possible.

In order that there will be no misunderstanding, we are enclosing herewith a sample of the Burial Permit. It will be necessary for you to have, in cases before burying a body.

It is our intention to see that this law is rigidly enforced, and we hope you will give us your co-operation.

If you have been keeping such a record and requiring Burial Permits, of course, this communication does not apply to you, but if you have not, do so.

Yours very truly,

Bureau of Vital Statistics, J. H. Ellis, State Registrar.

Extract from Sanitary Code.

"No section, or person in charge of any premises in which interments are made, shall inter or permit the interment or other disposition of any human remains unless such remains are accompanied by a Burial Permit signed by the Local Registrar of the district in which said premises are located, or by some other Local Registrar or Local Health Officer elsewhere in Louisiana."

"Anyone found guilty of violating the provisions of the Code, the penalty, under Act of 1906, is a fine of from \$10.00 to \$500.00 and possible imprisonment."

Attention of the public is called to the above letter addressed to me by the State Board of Health. All parties are warned that they must secure a Burial Permit from the local registrar of the district before they will be allowed to bury their dead in the Catholic graveyard, or per extract from Sanitary Code of this state.

THE CHALMERS

Are you going to buy a "trade in" car or a car to keep? It pays to buy a good car to start with. If you buy a cheap one you naturally get cheap materials in it, and in a year or so you are compelled to trade it in for a better one, and you have a good part of your original investment.
